WEST PENN RAILWAYS CO. TO EXTEND LINE TO BROWNSVILLE

An Important Step Towards the Linking of the Monongahela Valley to that of the Youghiogheny Has Just Been Taken.

The line of the West Penn Railways Company will be extended from Footedale, on the Leckrone branch to Brownsville at once. Rights of way for this line have been secured and construction will likely be commenced within the next ten days. This statement was made positively by an official of that company this morning. In beginning this work the company makes a long stride in its progress, and an important step is taken in linking the Monongahela Valley to that of the Youghiogheny, two sections that have remained remote from each other since the county was formed.

Through Attorney George M. Hosack of Pittsburg the company has applied to the State Department at Harrisburg for the right to occupy the National Pike for a distance of about 1,200 feet in Redstone and Brownsville townships.

The line from Leisenering No. 3 to Brownsville, which will ultimately make a through line from Connellsville to the old town along the banks of the Monongahela, will be taken up next. All surveys have been made and rights of way will be taken up immediately.

The line from Uniontown to Brownsville will be about 15 miles in length. Unless unforseen obstacles occur to delay the work, cars will be running early next spring.

Ladies Bowling Party

A Ladies Bowling party has been formed in this city and the Capitol Bowling alleys will be reserved for their use Thursday evening of next week. All are invited to come and bring their ladies and Manager Lebowitz guarantees to maintain good order.

Margaret Lowstutter will entertain at the home of her parents at East Monessen this evening, the members of the Delta Alpha class of the Methodist church. All are requested to be present.

Clams' Eggs.

The clam's eggs are carried by the mother on her gills. When there are fish in the water with them the mother clams discharge the eggs which soon hatch, but if there are no fish they carry the eggs until they decay. The reason of this strange behavior is this: When the eggs are set free in the water they soon hatch and the little ones swim about until they find some fish to which to attach themselves. They live for a time on the mucus of the fish and then drop off, sink to the bottom and form burrows for themselves. This curious semiparasitic life is no doubt a reversion to the habit of some ancient ancestor.

One Man's Wisdom.

Green—Who was it that said, "Let me make the songs of a nation and I care not who makes its laws?" Brown—I don't know the man's name, but he was a wise guy, all right. Green—Because why? Brown—Because it is possible to evade the laws, but one can't get away from the songs, especially when they become popular. —Chicago News.

The Price of Vanity.

"What became of that life guard who had forty-one medals for saving people's lives?"

"The poor fellow fell out of a launch with them all on and the combined weight sank him."—Minneapolis Journal.

WERE HELD FOR COURT

Two of the Four Negroes Arrested by State Police Near Courtney Committed to Jail.

Ora Lewis and Henry Tucker, two of the four negroes who were captured by the state constabulary, near Courtney, pleaded guilty before Squire Wilson of Charleroi, to a charge of carrying concealed weapons and were found over for court. The other two, charged with being suspicious characters, were allowed to go as there was not enough evidence to hold them.

Capt. Borland and his men paid Charleroi another visit yesterday afternoon but without results. The places where the tough characters generally rendevouz were searched thoroughly and although several clues were followed up closely, no prisoners were taken. The party crossed the river and again visited Wireton, where several places were searched. It was midnight before they finally returned to their hotel. It is quite evident that the toughs and thugs, which have so long infested this vicinity, have at last become thoroughly alarmed and are at last rapidly departing for parts unknown. That we can readily spare them goes without saying. Capt. Borland and his men will be occupied today with locking up several fresh clues.

At noon today a negro named "Shorty" Lee was arrested in one of the local saloons by Constable Watts and two of the state police. He was locked up on a charge of conducting a speak-easy. He will probably be given a hearing some time this evening. Capt. Borland, leaving the situation in charge of Sergeant McCall, left for Greensburg on the 1:14 train. The object of his trip was not made known. He is expected back tomorrow evening or Saturday.

F. O. E. SOCIAL SESSION.

About Eighty Members and Friends Enjoyed Banquet in the Club Rooms Last Evening.

The members and friends of the local Aerie F. O. E. enjoyed a delightful social session in their club rooms last evening. The affair was carefully planned and passed off very pleasantly. The decorations which were in the colors of the order, were quite beautiful. A very entertaining musical program was rendered. It consisted of songs and instrumental solos, while several of the members in a very able manner delivered brief addresses which delighted their hearers.

The banquet which followed was a most enjoyable one and was elaborately served. Covers were laid for over eighty persons. The menu consisted of all the delicacies of the season including green turtle soup and spring chicken. After the banquet several of the members of the Cradoc-Neville Stock Co. entertained the guests for about an hour, when all departed for their homes well pleased with the evening's enjoyment.

CAUTION

Don't Buy a Second Hand Piano, Believing it to be a New One.

The prices we are offering some very fine upright pianos at, is causing many to believe them to be second hand. This is entirely wrong. While it is true we have one or two second hand pianos that have been taken in trade, the rest of the stock are all perfectly new instruments.

We sell nothing out of its class. If it is a low priced piano we tell you so. If it has been used we say so. On the other hand if it is a strictly first class new piano, the price being only half of what you expected it to be, does not change the piano any. Our loss of profit is the purchaser's gain. We want the store room cleaned out and in a few days we shall have on exhibition the finest line of fall styles to be found anywhere. Prices will never be so low as they are just now. Come and see what you can buy for $150. Ten Dollars will secure you one. W. F. FREDERICK,

Assemblymen Will be Taken Over the Pike in the Vicinity of Latrobe in Automobiles in the Near Future.

The town of Latrobe is to have a big demonstration in favor of Good Roads, on the twentieth of the present month, when a large number of the members of the State Legislature will be there as the guests of Marcus W. Saxman, for the purpose of making an inspection of the roads, especially the National Pike. The visit of the Legislators to Latrobe comes as a result of the earnest efforts which Congressman George F. Huff, and others have been making for some time past to have the National Pike put into good condition, from Philadelphia to Pittsburg and to bring about which improvement a bill is to be introduced into the next Legislature.

The legislators from all over the state have been invited to be there and they will be taken over the pike as far west as Nessler's store, and then to the east through Ligonier Valley.

The Latrobe owners of automobiles have been asked to place their machines at the disposal of the guests and a number will also be taken from the county seat to help carry the legislators over the road.

The Retort Genital.

A southern woman who is now past her prime, but whose ready wit still makes her a welcome guest wherever she goes, tells the following story about an encounter with what she terms a "northern iceberg:" She was at a musical entertainment at a private house in New York, and at the end of a song which had been delightfully rendered she turned with an exclamation of pleasure to a lady who sat near and whom she knew by sight, but had never met.

The woman addressed looked at her in surprise for a moment and then asked coldly, "Have I the pleasure of knowing you?"

"No," was the answer, "but I felt at liberty to speak to you on account of your being under such very great obligations to me."

"Will you have the goodness to explain what you mean?" said the New York woman haughtily.

"Merely that I refused your husband twenty-five years ago," replied the little southerner as she moved away to seek a more congenial atmosphere.

The Great Lantern Fly.

One of the largest and most curious of the many luminous or lamp bearing insects is the great lantern fly, a species of the firefly peculiar to central and northern South America. The great lantern is hardly as large as the common dragon fly or "snake feeder," but like that creature it has lacelike wings and an elongated abdomen. In Central America, particularly in Costa Rica and Panama, the Indians capture them by thousands, using them as decorations for their headdresses, saddles, etc. The Frenchman Renard who visited Gautemala in 1802 declared that the Indians used lantern flies and other luminous insects much in the same manner that we do torches and lanterns and that by the light the insects give out they were able to find their way through dark woods and swamps.

Letter to J. F. Irwin

Monessen, Pa.

Dear Sir: Here's a tale with three or four tails to it.

Professor Irvine has an Academy, Mercersburg, Penn. He paints the floors in summer vacation. It used to take 90 gallons of paint. There were two paint stores there, and he used to buy (one year of one, next year of the other) 90 gallons year after year.

Now he paints Devoe; 60 gallons; and the difference is a saving of $150 a year.

H C Fallon was one of those dealers, good man; but he wouldn't take up Devoe; so we turned to the other, J A Boyd. But Fallon has found it necessary to get a good paint to compete with Devoe. He got one of the eight honest paints. He has a big hardware store and is doing an excellent hardware business; but Boyd, of course, has the run on paint—he's a little hardware man.

We don't care how little or big a man is, if he wants good paint and is active and sound.

The Bartered Bridegroom.

There are held here many "confidential weddings," as they are called when the ceremony is kept unusually quiet. But sometimes they are too confidential to please the relatives of the parties. The coercion of prospective brides under such circumstances is a proceeding well authenticated in fact and fiction. A kidnaped bridegroom, however, is unusual, though he happened at St. George's not long ago. He was a gentleman of position, and he wished to marry a lady who had nursed him through an illness. There was no cause or just impediment save social rank. The gentleman was determined, and the lady seconded his plans admirably. But the city and the details leaked out, and before the time fixed the bridegroom's male relatives deployed strategically through Maddox street and surrounded the church. He drove up in a hansom cab. With his eyes fixed on the expectant bride, he prepared to alight. An athletic uncle and a brother sprang forward, thrust him back, with a "Glad to meet you, old fellow" manner that deceived the cabman, who obeyed the quick direction he heard and drove the three away. The lady, with tears in her eyes, went into the vestry. "There will be no wedding," she said. "They've run away with him." And that was the last St. George's heard of them.—London Mail.

Forests' Unnatural Death.

The life of nearly all forests is cut short by fire or by the hand of the lumberman. When a spruce forest is entirely destroyed by fire young spruces do not at once spring up and cover the burned area. The seed bearing cones have been burned, and the spores and seeds of other plants which are readily carried by the wind find their way in first. The task of preparing for the forest is begun again, but this time it is to be a shorter one. The first year after the fire mosses and often tiny flowering plants appear. These are replaced by the fireweed and other flowers whose seeds are provided with hairs so that they reach such places quickly. These are soon joined by raspberries, roses and other bushes. Among these the young seedlings of aspens appear in a very few years. The latter grow rapidly and in a score of years form a low sunny forest. An aspen forest makes a brilliant contrast with the dark green forests of spruce.—St. Nicholas.

Here are the symptoms of Kidney complaints: Urine laden with sediment, brick dust in urine, highly colored urine, greasy froth or blood in it, stringy mucous in urine, unusual desire to urinate, pain in passing water, pain in the back and over the kidneys, hot, dry and itching skin, hair dry and brittle, painful joints, legs feel heavy, sleeplessness, dullness, loss of weight, chilly sensations, loss of memory, general debility, irregular heart, disorders of eyesight, trouble with hearing, waxy skin, fever, shifting from one foot to the other in standing. An improper treatment is often worse than none. Most Kidney medicines get their effect from remedies called diuretics. These are practically kidney physics, acting as cathartics, act on the bowels. They excite the kidneys to unusual action, they cause overstrain. These diuretic remedies cure themselves the frequent cause of serious kidney disease. Don't try to doctor the kidneys themselves, for you will only harm them. Their only strength is nerve power. Dr. Shoop's Restorative (Tablets or Liquid) vitalizes the nerves that operate the Kidneys. Sold and recommended by

"ALL DEALERS"

G. B. Burhams Testifies after four Years.

G. B. Burham of Carlisle Center, N. Y., writes "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I'm glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble." Sold by Kirks Drug Store.

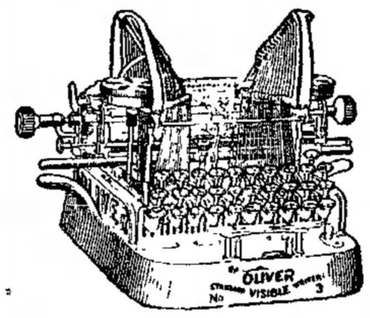
THIS TYPEWRITER DELIVERS THE GOODS

It's the Oliver—the Standard Visible Writer.

The Oliver Typewriter is just like an athlete stripped for a race



It is free from unnecessary multiplicity of wires and springs

No net work of flimsy keys to get tied into hard knots

The nimble fingered stenographer can put talk into type with this machine just as rapidly as she takes your dictation.

For no matter how swiftly she writes, she can see just what she's doing

The keyboard is so wonderfully responsive to the touch of the finger tips that speed comes without effort.

The factors that make for speed are its visible writing, its light, elastic key-touch, and it's all 'round simplicity. It has the fewest possible wearing points, and it prints with a downward stroke.

The OLIVER Typewriter

THE STANDARD VISIBLE WRITER

is a flawless piece of mechanism, combining the strength of tested steel with the perfect adjustment of the works of a watch. You can use an Oliver a life time and the type will not lose alignment

It never suffers from nervous prostration; requires only a little oil and plenty of exercise to keep it at the highest point of efficiency.

The hum of Oliver Typewriters is heard in the most progressive business houses in the land. Sales increasing at a phenomenal rate. Get acquainted with the Oliver! Write for the Oliver book—we send it free with our compliments.

HAPPY WOMEN.

Wouldn't any woman be happy,
After years of backache suffering,
Days of misery, nights of unrest,
The distress of urinary troubles,
To find relief and cure?
No reason why any reader
Should suffer in the face of evidence like this:

Mrs. Almira A. Jackson, of East Front St., Traverse City, Mich., says: "For twenty years I was doctoring for kidney and liver trouble, but without benefit. Just before I began using Doan's Kidney Pills I was almost paralyzed. I could hardly stand on my feet because of the numbness and lack of circulation. Had a knife been thrust into my kidneys the pain could not have been more intense. My sleep was disturbed by visions of distorted figures. The kidney secretions were annoyingly irregular, and I was tortured with thirst and always bloated. I used seven boxes of Doan's Kidney Pills. The bloating subsided until I weighed 100 pounds less, could sleep like a child and was relieved of the pain and the irregularity of the kidney action. My circulation is good and I feel better in every way."

A FREE TRIAL of this great kidney medicine which cured Mrs. Jackson will be mailed on application to any part of the United States. Address Foster Milburn Co., Buffalo, N. Y. For sale by all druggists; price, 50 cents per box.
